Isn't the answer that she estimates what she needs for the year verbally and then we divide across the year when we can afford it. If she is running low, she calls and indicates what more she needs.

Hi Bill:

It turns out the report is attached, for some reason it doesn't show up on the i-phone.

I did forget to confirm a couple of things with you yesterday:

- Do you receive any other reports or data in emails from CDF? If so, please provide
- How does CDF make a request for additional funding? Is it verbal or by email? How do they justify it? Please provide any documentation you might have regarding such requests.

Thanks,

John
